

**ENDOTRACHEAL INTUBATION**

Simplify your process  
with a safer design  
StyleTube

StyleTube is an innovation designed to simplify the endotracheal intubation process by eliminating the need to unpack and deploy a stylet and laryngoscope. The StyleTube is equipped with a camera, light and articulating tip that makes insertion fast and accurate with no need for Xray placement confirmation.

Designed by Dr. Thomas Viren, the StyleTube reflects his passion for optimizing materials while improving safety. His experience in leading wilderness expeditions as far as the Arctic Ocean taught him to use resources wisely while ensuring the safety of all involved. His practical approach is evident in the design of the StyleTube.

PRODUCT QUALITY
<ul style="list-style-type: none"> <li>• High Reliability</li> <li>• Superior Safety; Minimally Invasive</li> <li>• Visual Technology</li> </ul>
Benefits to You
<ul style="list-style-type: none"> <li>• Adapts shape to variable patient structure</li> <li>• Reduced dental trauma and disease transmission concerns</li> <li>• Ability to upload pictures to patient's EHR</li> </ul>

PRODUCT EFFICIENCIES
<ul style="list-style-type: none"> <li>• All-in-One Package</li> <li>• Immediate Placement Confirmation</li> <li>• Easy Tube Manipulation</li> </ul>
Benefits to You
<ul style="list-style-type: none"> <li>• Reduced time to solution</li> <li>• Patient safety guaranteed; no need for Xray</li> <li>• Confidence in correct placement</li> </ul>

**EXPERTISE**

Dr. Viren has 19 years of experience as a full-time ED physician in Grand Rapids, Minnesota. Since 2015, Dr. Viren identified and developed an all-in-one solution for endotracheal intubation that not only simplifies the process, but also addresses concerns exacerbated by the Covid-19 pandemic: transmission of airborne diseases.

**VERSATILITY**

StyleTube is designed to fit your situation with flexible options on sizes and connectivity.

**AVAILABILITY**

StyleTube is currently under design refinements and will be available initially only in the United States. For a consultation on your specific needs based on patient profiles or equipment, contact Dr. Thomas Viren at 218.259.5459. To submit your request on-line, send an email to [info@corvidaemedical.net](mailto:info@corvidaemedical.net).

IMPORTANT: It is the user's responsibility to test and determine the suitability of a product for the user's intended use. Any product samples provided for testing are provided in accordance with standard limited warranties.
